3RD SUNDAY

HEART HEALTH IN THE BLACK COMMUNITY!

**Heart disease was the #1 killer for all
Americans prior to COVID-19.
The risk of developing heart disease is
even higher for African Americans.**

#Ourhearts are healthier together! #HeartMonth #CBCHealthMinistry

February #HeartMonth!

Reduce the risks & improve the odds of beating heart disease.

1. Check your blood pressure regularly.

If you have high blood pressure, make dietary changes, be physically active and take meds as prescribed.

#Ourhearts are healthier together! #HeartMonth #CBCHealthMinistry

February #HeartMonth!

2. If overweight, focus on the quality of your diet and again be physically active.

Avoid empty calories & unhealthy snacking.

Eat whole grains, decrease carb-heavy portions & drink lots of water.

3. Type 2 Diabetes is treatable and preventable if early warning signs are recognized.

Again, regular exercise, diet and taking meds as prescribed are key.

7 STEPS TO A HEALTHY HEART

Try these tips each day this week and again next week. Develop a routine tailored to your preferences and keep it up!

#Ourhearts are healthier together! #HeartMonth #CBCHealthMinistry

February #HeartMonth!

Step 1: Walk for 15 min. Do strength exercises for 15 min.

Step 2: Make today a salt-free day. Use herbs for flavor. Have fruit instead of sweets for dessert.

Step 3: Check or get your blood pressure checked.

Use a relaxation technique to reduce stress. Get 8 hours of sleep.

#Ourhearts are healthier together! #HeartMonth #CBCHealthMinistry

February #HeartMonth!

Step 4: March in place during commercials at home, or at work break time, do a stair run up and down 2-3 times.

Step 5: Fill half your lunch & dinner plates with vegetables or have a vegetarian day.

#Ourhearts are healthier together! #HeartMonth #CBCHealthMinistry

February #HeartMonth!

Step 6: Add another 15 min to your walk or dance for 15 min.
